TABLE OF CONTENTS

NUMBER 1, SEPTEMBER 1981

Breimer, M E, Hansson, G C, Karlsson, K-A & Leffler, H, Glycosphingolipids and the differentiation of intestinal epithelium 1

Sasaki, H & Aketa, K, Purification and distribution of a lectin in sea urchin (*Anthocidaris crassispina*) egg before and after fertilization 15

Laurila, P, Loss of pericellular fibronectin matrix from heterokaryons of normal human fibroblasts and epithelial cells 21

Mura, C V & Stollar, B D, Fluorescence-activated sorting of isolated nuclei. Heterogeneity of histone H5 immunofluorescence in chicken erythrocyte nuclei 31

Sugimoto, Y, Effect on the adhesion and locomotion of mouse fibroblasts by their interacting with differently charged substrates. A quantitative study by ultrastructural method 39

Dollenmeier, P, Turner, D C & Eppenberger, H M, Proliferation and differentiation of chick skeletal muscle cells cultured in a chemically defined medium 47

Prantera, G, Di Castro, M, Cipriani, L & Rocchi, A, Inhibition of human chromosome condensation induced by DAPI as related to cell cycle 63

Willmitzer, L & Wagner, K G, The isolation of nuclei from tissue-cultured plant cells 69

van Venrooij, W J, Sillekens, P T G, van Eekelen, C A G & Reinders, R J, On the association of mRNA with the cytoskeleton in uninfected and adenovirus-infected human KB cells 79

Sanders, E J & Prasad, S, Contact inhibition of locomotion and the structure of homotypic and heterotypic intracellular contacts in embryonic epithelial cultures 93

Hecht, N P & Parvinen, M, DNA synthesis catalyzed by endogenous templates and DNA-dependent DNA polymerases in spermatogenic cells from rat 103

Engström, W, Requirements for competence and commitment of quiescent 3T3 cells to initiate DNA synthesis after growth stimulation in low serum concentration 115

Rubin, K, Johansson, S, H ök, M & Öbrink, B, Substrate adhesion of rat hepatocytes. On the role of fibronectin in cell spreading 127

Godfrey, W, Doe, B, Wallace, E F, Bredt, B & Wofsy, L, Affinity targeting of membrane vesicles to cell surface 137

Kennedy, J R & Duckett, K E, The study of ciliary frequencies with an optial spectrum analysis system 147

Hendil, K B, Autophagy of metabolically inert substances injected into fibroblasts in culture 157

Lifrak, E, Chen, C C & Wishnow, R M, Effect of lectins on cAMP production and steroidogenesis in cultured adrenal tumor cells 167

Brachet, J & de Petrocellis, B, The effects of aphidicolin, and sea urchin development 179

Sokawa, Y, Nagata, K & Ichikawa, Y, Induction and function of 2′,5′-oligoadenylate synthetase in differentiation of mouse myeloid leukemia cells 191

Boynton, A L, Whitfield, J F, Macmanus, J P, Armato, U, Tsang, B K & Jones, A, Involvement of cAMP and cAMP-dependent protein kinase in the initiation of DNA synthesis by rat liver cells 199

Bretscher, A, Osborn, M, Wehland, J & Weber, K, Villin associates with specific microfilamentous structures as seen by immunofluorescence structures on tissue sections and cells microinjected with villin 213

Dicker, P, Pohjanpelto, P, Pettican, P & Rozengurt, E, Similarities between fibroblast-derived growth factor and platelet-derived growth factor 221

Volkmann, D & Czaja, A W P, Reversible inhibition of secretion in root cap cells of cress after treatment with cytochalasin B. Support for the membrane flow concept 229

NUMBER 2, OCTOBER 1981

Dorée, M, Kishimoto, T, Le Peuch, C J, Demaille, J G & Kanatani, H, Calcium-mediated transduction of the hormonal message in meiosis reinitiation of starfish oocytes. Modulation following injection of cholera toxin and cAMP-dependent protein kinase 237

Dorée, M, Cavadore, J-C, Le Peuch, C J & Demaille, J G, Hormone-induced phosphorylation of a 16 000 Dalton polypeptide following meiosis reinitiation in starfish oocytes 251

Olson, M O J, Guetzow, K & Busch, H, Localization of phosphoprotein C23 in nucleoli by immunological methods 259

Mastro, A M & Pepin, K G, [^{3}H]Thymidine incorporation in bovine lymphocytes treated with the tumor promoter, 12-*O*-tetradecanoyl phorbol-13-acetate 267

Fakan, S & Deltour, R, Ultrastructural visualization of nucleolar organizer activity during early germination of *Zea mays* L. 277

Friedman, D L, Claus, T H, Pilkis, S J & Pine, G E, Hormonal regulation of DNA synthesis in primary cultures of adult rat hepatocytes. Action of glucagon 283

Holm Nielsen, E, Clausen, J & Bytzer, P, Membrane retrieval in non-exocytic and exocytic rat peritoneal mast cells 291

Blose, S H & Meltzer, D I, Visualization of the 10-nm filament vimentin rings in vascular endothelial cells in situ. Close resemblance to vimentin cytoskeletons found in monolayers in vitro 299

Schatten, G & Schatten, H, Effects of motility inhibitors during sea urchin fertilization.

Microfilament inhibitors prevent sperm incorporation and restructuring of fertilized egg cortex, whereas microtubule inhibitors prevent the pronuclear migrations 311
Heizmann, C W, Hobi, R, Winkler, G C & Kuenzle, C C, The extra DNA of brain cortex neurons is qualitatively indistinguishable from other somatic DNA 331
Yamamoto, F, Furusawa, M, Takamatsu, K, Miura, N & Uchida, T, Intracellular introduction of a fixed quantity of substances by pricking cells using a modified microscope 341
Lydon, M J & Hughes, R C, Fibronectin synthesis and surface expression is correlated with cell morphology and adhesiveness in a cold-sensitive, G1-defective mutant of CHO cells 347
Ochs, D C, McConkey, E H & Guard, N L, Vimentin-derived proteins. Differences between normal human fibroblasts and transformed human cells 355
Tomita, Y, Nakamura, T & Ichihara, A, Control of DNA synthesis and ornithine decarboxylated activity by hormones and amino acids in primary cultures of adult rat hepatocytes 363
Raman, R & Sperling, K, Patterns of silver staining on NORs of prematurely condensed muntjac chromosomes following RNA inhibition 373
Kaplan, G & Olstad, R, Heterogeneity in surface glycoproteins of mouse peritoneal macrophage populations 379
Pluta, A F & Spear, B B, Localization of genes for ribosomal RNA in the nuclei of *Oxytricha fallax* 387
Matsuhisa, T & Mori, Y, An anchorage-dependent locus in the cell cycle for the growth of 3T3 cells 393
Wegener, G & Sauer, H W, No growth cycle in *Physarum*? 399

PRELIMINARY NOTES

Velazquez, J M & Renaud, F L, cAMP uncouples DNA synthesis and cell division in *Tetrahymena* 407
Wei, L-H, Erlanger, B F, Eastman, E M, Miller, O J & Goodman, R, Inverse relationship between transcriptional activity and 5-methylcytosine content of DNA in polytene chromosomes of *Sciara coprophila* 411
Chapman, L F, Changes in cyclic nucleotide levels during erythroid differentiation in Friend leukemia cells 415
Helm, R M & Carraway, K L, Evidence for the association of two cell surface glycoproteins of 13762 mammary ascites tumor cells. Concanavalin A-induced redistribution of peanut agglutinin-binding protein 418
Ghosh, P K, Nand, R & Rani, R, Restrictive distribution of asymmetric C-bands in the chromosome complement of the Rhesus (*Macaca mulatta*) 424
Foster, D A, 1-β-D-Arabinofuranosylcytosine stimulates thymidine incorporation into the DNA of contact-inhibited cells 427
Mesland, D A M, Los, G & Spiele, H, Cytochalasin B disrupts the association of filamentous web and plasma membrane in hepatocytes 431
Law, R E & Miller, L, Effect of 5′-methylthioadenosine on nucleolar morphology and RNA metabolism in cultured *Xenopus laevis* cells 435
Celotti, L, Furlan, D, Lanfranchi, G, Sartori, A & Marin, G, Co-dominant markers for the selection of somatic dihybrids and polyhybrids 438
Young, M R, D'Arcy Hart, P & Geisow, M J, Action of weak bases on phagosomes of cultured macrophages. Suppression by ammonium ions of an early increase in phagosomal pH 442
Thomson, I, Yasuda, K, dePomerai, D I, Clayton, R M & Okada, T, The accumulation of lens-specific protein and mRNA in cultures of neural retina from 3 ½-day chick embryos 445
Hausmann, K & Patterson, D J, Involvement of smooth and coated vesicles in the function of the contractile vacuole complex of some cryptophycean flagellates 449
Ramaekers, F C S, Boomkens, T R & Bloemendal, H, Cytoskeletal and contractile structures in bovine lens cell differentiation 454
Nicolson, G L, Irimura, T, Gonzalez, R & Ruoslahti, E, The role of fibronectin in adhesion of metastatic melanoma cells to endothelial cells and their basal lamina 461
Maybaum, J & Mandel, H G, Differential chromatid damage induced by 6-thioguanine in CHO cells 465
Englander, L L & Malech, H L, Abnormal movement of polymorphonuclear neutrophils in the immotile cilia syndrome. Cinemicrographic analysis 468
